**ENGLISH** - For day-to-day cleaning, simply wipe the vanities with a soft, damp cloth and a little mild detergent if necessary. Avoid cleaning agents that include ammonia, alcohol, bleach or abrasives. Rinse afterwards with clean water and then dry with a clean, dry cloth. Do blot up spills immediately. Please avoid exposing the furniture to high concentrations of steam or other forms of moisture. Keeping your bathroom ventilated is highly recommended.

**FRANÇAIS** - Pour l'entretien habituel du meuble, nettoyez la surface avec un chiffon légèrement humidifié d'eau et séchez-le rapidement. Ne pas utiliser de lessives composées d'ammoniaque, alcool, eau de javel ou autres produits abrasifs. Il est recommandable de sécher tout versement d'eau survenu. Evitez que le meuble soit exposé à des concentrations excessives de vapeur ou autres formes d'humidité. Nous vous recommandons une bonne ventilation dans votre salle de bain.

**ESPAÑOL** - Para el mantenimiento diario de su mueble, limpie la superficie con un paño ligeramente humedecido de agua y seque rápidamente. Evite detergentes que incluyan amoníaco, alcohol, lejía u otros abrasivos. Es conveniente secar cualquier derrame de agua que se haya producido. Evite exponer el mueble a excesivas concentraciones de vapor u otras formas de humedad. Le aconsejamos ventilar bien su cuarto de baño.
